Biocore extend a warm welcome to the distinguished speakers, delegates, biotechnologists and pharmaceutical industry leaders, from all around the world to attend the 2nd World Congress & Expo on Biotechnology and Bioengineering during June 25-27, 2018 Dubai, UAE.

This event will focus on various important disciplines of biotechnology and bioengineering. This conference will have a variety of plenary lectures, session lectures and poster presentations, Scientific Exhibitions, Panel Discussions, and the B2B meetings with world renowned speakers, biotechnologists, pharmaceutical professionals and leading specialists involved in biotechnology and bioengineering. This conference designed to provide a strong platform for Academic, Industrial Leaders, Business and Financial Executives to make experience exchanges around the world. This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class Scientists.

Biotechnology & Bioengineering 2018 aims to provide a challenging forum and vibrant opportunity for researchers and industry practitioners to share their original research results and practical development experiences on specific new challenges and emerging issues.

Benefits of Attending

• The conference gathers together researchers and professionals from the field of Biotechnology and Bio-engineering which allows them to share their research results, innovative ideas and practical experience.
• Participants have the opportunity to link with experts from all around the world and thus become part of a unique scientific community.
• Exchange ideas and network with leading biotechnologists and decision makers.
• The conference will feature a commercial exhibition and poster sessions.
• Participants can gain direct access to a core audience of biotechnology professionals and decision makers.

Who Should Attend

• The conference will attract scientists and senior international decision makers.
• Delegates will have a valuable, informative and positive experience.
• Biotechnologists, Pharmaceutical Scientists, Food, Environmental and Plant Scientists, leading specialists involved in biotechnology and bioengineering, Clinicians, Research associates from the biotechnology industry and academia, Biomedical researchers, Clinical Engineers, Biomedical equipment technicians, Biomedical engineers, Healthcare and hospital specialists etc.

Submission Guidelines

Abstracts must be submitted on the understanding that they have not been presented elsewhere the submitting speaker should ensure that the abstract publication has been approved by all other coauthors. All abstracts must be written exclusively in English (including the title, abstract text, author names and affiliations)

Dubai is one of the seven emirates that make up the United Arab Emirates on the Arabian Peninsula and is one of the wonders of the modern world. It is located on the southeast coast of the Persian Gulf and is one of the seven emirates that make up the country. The city of Dubai is located on the emirate’s northern coastline and heads up the Dubai-Sharjah- Ajman metropolitan area. Dubai has emerged as a global city and business hub of the Middle East. Dubai having expanded along both banks of the Creek, Dubai is divided into two parts - Deira on the northern side and Bur Dubai to the south, as well as the top tourist destination of Jumeirah. Dubai is preserved some of the most intriguing historical attractions.
